#### MINES MENACE SHIPS.

#### Number of Ships Suffered Destruction by Contact at Sea.

TOKYO, May 13.-The Japanese Mall Steamship Company's chartered steamship Sobralence, on its way from Kabe to Kinkew, the port of Newchwang, with bean cake for the Japanese army, was blown up at noon yesterday by a floating mine near the Lisotishan promontory, Port Arthur, and sank. Sixty-three of her people were rescued. The Japanese admiralty has repeatedly urged navigators to exercise the utmost care in Port Arthur waters.

CHEFOO, May 13.-The Japanese transport Sheyutsu, loaded with provisions for Niuchwang, struck a mine near the Minoto Islands, and her entire after part was blown away. She signaled to a merfused aid when she ascertained that the merchantman was a Chinese ship. The officers of the latter state that it is impossible that the Sheyutsu survived the night, as the weather was stormy.

#### Chinese Neutrality Precautions.

HONG KONG, May 13,-The special correspondent of the South China Morning Post at the Island of Hainan sends word under date of May 9 that on May 2 two Russian criusers and four torpedo boats were reported off Quilinkan, Hainan, steaming toward Leongsoi bay. The Chinese sent a gunboat to reconnoiter. When the correspondent sent his message she had not returned. Nothing reliable has been heard since of the movements of the Russian ships. The Chinese are taking greatest precautions to maintain neutrality.

# VICE ADMIRAL KILLED CHICAGO SITUATION

Russian Officer Assassinated | Team Cwners to Confer With Drivers Tonight.

ST. PETERSBURG TODAY THE NEUTRAL BODIES

GENERAL BUSINESS RESUMED ON A LARGER SCALE.

Protection-Employment Bureau Enlarges Scope.

CHICAGO, May 13 .- Peter Doyle of the Chicago Team Owners' Association denied today orderly in his room today. The orderly fired | that the association, heretofore deemed neuthree shots from a revolver at the admiral. | tral in the teamsters' strike, had definitely The crime is attributed to the anger of the determined to abandon its conciliatory polmurderer at his dismissal from his duties | ley. Representatives of the association will as orderly and being ordered to proceed to go before the teamsters' joint council tonight, and in the meantime will determine whether to demand that deliveries be made by union drivers to boycotted concerns.

It was reported last night that the members of four associations who had preserved a neutral attitude thus far had taken a positive stand, and that either a sett'ement of the present strike or a spread to far greater proportions was expected by the early part of next week. The team owners held a conference at the Briggs House, after which President Shea was sent for and asked if he would rermit his union teamsters to deliver goods for the team owners to beycotted houses. Uron the refusal of Shea it was announced that a committee of team owners would go bemen here have proclaimed a general strike fore the joint council, which is deemed a strike committee.

Members of the Chicago Team Owners' Association, the Commission Team Owners' Association, the Van Team Owners' Association and the Lumbermen's Association were in the conference. The associations represented employ approximately 8,000 men. It has been represented to the team owners that they must make deliveries in order to live up to contacts. The commit-tee which transmitted the news to Shea and the other labor leaders was composed of T. J. Dixon, Edward Hines, Secretary T. J. Cavanaugh of the Team Owners' Asso-ciation and Peter Doyle, who today denied that the association had definitely deter-mined to abandon conciliation. When the action of the owners was made known to Shea he is said to have responded: "We'll win. If they want to fight, let 'em come on. We can still call out every member of our union in the city and paralyze the transfer business of Chicago. I do not say this will be done, but we will do it rather

#### Sentiment Among Teamsters.

Sentiment among the teamsters, unofficially expressed, today was that efforts to be made tonight by the team owners' committee to secure permission from the teamsters' joint council to make deliveries to the boycotted houses would be fruitless. A spread of the strike was looked for. Assertions were made that it may reach gigantic proportions.

Martin Lacy, a non-union colored team-ster, while driving a wagon on Wentworth avenue, was dragged from the vehicle by six men and beaten into insensibility. Lacy was taken to the Provident Hospital, where it was found that he had severe wounds in the head.

Business was resumed today on a larger scale than on any previous day since the strike was inaugurated. Wagons moved along the streets with smaller police pro-tection that heretofore. At all the large retail stores, however, as well as upon wagons through the city, armed deputy sheriffs were much in evidence. were thrown at non-union drivers who delivered coal to the Carter H. Harrison School, 23d place and Wentworth avenue, today. Twenty policemen escorted the wagons from the Peabody Coal Company's yards. Missiles began to fly as soon as the wagon approached the school building. Crowds of the school children stood on the corners asserting they would not go to school Monday. Notwithstanding the stonethrowing, the coal was delivered. No arrests were made. The death of Harry Grady at Provident

Hospital today added another fatality to the list attributed to the teamsters' strike. Grady and his brother William were called to the rear of their home in the night, and without apparent provocation, shot down. A bullet entered Harry Grady's head, but his brother escaped with less serious injuries, and is recovering.

Rumors of a strike of the employes of

the Union Traction Company were re-vived today. The agreement between the employes and the company expires during the last part of this month. General Manager Roach of the traction company denied that there was any prospect of a strike, saying that there was no disa-greement of any kind between the two sides. Despite this denial, the rumor was widely circulated and was given credence in labor circles.

#### HARRISBURG HORROR VICTIMS. Interment of Five Charred Bodies, Un-

identified, Today. HARRISBURG, Pa. May 13.-Brief and simple services were held over the charred bodies of the five unidentified victims of the Square Presbyterian Church today, after which they were buried in the Paxtang cemetery. The services were attended by the directors of the Harrisburg Hospital and many railroad and city officials.

The sight of five hearses in front of the church, one of the most fashionable in Harrisburg, attracted the morbidly curious, and hundreds stood in the street while the services were being held.

Each of the bodies was carefully wrapped in linen bandages and then enveloped in a white eiderdown blanket.

The funeral address was made by Dr. Chambers, who touchingly referred to the circumstance that had brought those present to the church, and touched on the future life and the uncertainty of the present. One of the bodies was identified today as One of the bodies was identified today as William H. Holmes, 13th and Berks streets, Philadelphia, and was sent to his late home. The body was recognized by Holmes' father, who came here from Chicago, by a peculiar formation of a leg, due to an accident. Holmes' mother and sister had been here since Thursday evening trying to find his body. Holmes was a traveling salesman for a firm in which his father has an interest.

#### TO REST AT ANNAPOLIS.

Remains of John Paul Jones to Be Buried at Naval Academy.

It was announced at the White House last night that the President had selected the naval cemetery at Annapolis as the final resting place for the remains of Commodore John Paul Jones. It is explained that this action was taken on the recommendation of Secretary Morton, and also because naval officers who favored Annapolis and a few residents of Fredericksburg, Va., were the only persons who had taken any active interest in the disposition of the remains of the famous captain. It appears that the claims of the National cemetery at Arlington were not specially considered in this connection, for the reason that, outside of Admiral Dewey and the Daughters of the American Revolution, no persons or patriotic bodies advocated the selection of that cemetery. As between Annapolis and Fredericksburg, the President did not hesitate to select the former.

Acting Secretary Loomis today cabled Mr. Porter, ambassador at Paris, that Ad-

miral Sigsbee's squadron would sail from this country June 20 for France, and that the department approves the ambassador's plan to have the remains of John Paul Jones transferred to the squadron on the 4th of July with all proper ceremonies.

#### ALL FRICTION REMOVED.

Action of the President Regarding the American Republics Bureau.

The President's attention having been attracted to the situation in the executive poard of the Bureau of American Repubics growing out of the effort to have Mr. Gordon-Cumming appointed chief clerk in place of Mr. W. C. Fox, promoted to be director, he has finally removed friction by suggesting that a commission issue forthwith to Mr. W. C. Wells, who was the original choice of a majority of the board, as chief clerk. He also suggested that henceforth the members of the bureau be allowed to conduct the administration of the bureau according to their own rules and without interference on the part of officials of this government.

#### Jockey Fuller Dying.

Special Dispatch to The Star. NEW YORK, May 13.-Grover Cleveland Fuller, rated one of the greatest jockeys which the American turf has produced, now lies between life and death at St. Mary's Hospital, Jamaica, from an injury received on the opening day at the Jamaica track. He had the mount on Witful in the Excelsior handicap, and in a mixup near the finish received a severe gash on his leg, from which blood poisoning is said to have resulted.

#### Wants Hearing for Wilson.

Senator Scott of West Virginia, who has recently returned from a trip to Europe, was with the President about a number of things, the interests of some of his constituents being foremost. Senator Scott went out of his own balliwick, however, to ask the President to investigate the case of Fred Wilson, the agent of the Indian warehouse, who, not long ago, lost his position on charges that did not reflect honor upon his services with the government. Mr. Wilson, Senator Scott told the President had been associated with the republican national committee in a number of campaigns, had done good and valuable work for his party, "and I cannot believe that he is guilty of anything that is wrong," said Senator Scott. "He has never impressed me except as an honest man, and I merely want to see his given a square deal, right or wrong." It is thought the President will order a fuller investigation and that the result will be reported to him.

#### CHAUFFEURS DID NOT HAVE MARYLAND LICENSE.

During the progress of the horse show at the Chevy Chase Club, Chevy Chase, Md., yesterday afternoon, there was a little excitement not down on the program and that may possibly hold serious conse quences for the future. The little impromptu performance didn't last very long, but when the smoke cleared away deputy sheriff Bradley of Montgomery county had been ejected from the show ring and fifteen or twenty automobile chauffeurs had been placed under arrest by that dignitary. And as things now stand any au-tomobile owner who ventures to go to the club in his machine this afternoon may run into the clutches of the Maryland law.

The trouble started when the deputy

The trouble started when the deputy sheriff sought to pass through the ticket stand without the formality of presenting ticket. Neither was he adorned with the star of office and he was, moreover, in citi zen's clothes. Although the deputy sheriff has made himself rather obnoxious to the members of the Chevy Chase Club by his recent campaign to stop the selling of liquor on the club property, no one seemed to know him yesterday afternoon, and when he insisted on passing the ticket taker sans uniform, sans badge and sans ticket there was immediate trouble. During the excitement the county officer found him and obedient employes of the club. He disappeared in the direction of the club house and it is claimed that he threatened venge

Tomorrow's Star will have more readers than any other Washington Sunday paper; far more in the District of Columbia than any other paper; and more in regular subscribers to whom the paper is delivered by carriers in their homes than the other Sunday papers combined.

It is the home circulation that counts. The regular home reader reads thoroughly, especially in the case of a publication so full of the latest, freshest, fullest news and most attractive special features as The Sunday Star.

Advertisers avail themselves of this home circulation of The Sunday Star, not because they are under contract to use up at bargain rates a stipulated space in its columns, but because it is undeniably the best Sunday advertising medium to get the attentive consideration of the people of Washington in their homes and to produce results in promoting business.

## DAMAGE SUIT FILED AT THE WHITE HOUSE

Arthur Wall Seeks to Recover | More Trouble Over the Ohio From A. W. Mallery.

OUTCOME OF THE ARRESTS AT OREGON SITUATION IN REGARD POOL ROOM.

Company Seeks Redress-View of Citizens.

Additional chapters in the case of the citizens against the pool room at Kenilworth were started yesterday. On behalf of the establishment suit was filed at Upper Marlboro against Mr. Allen W. Mallery for \$10,000 damages. The suit was filed by attorneys for Arthur Wall, president of the Maryland Telegraph Company, be- C. Entrekin, collector of the district, and cause of the action of Mr. Mallery, as deputy constable in arresting Wall. No rouble was encountered in the matter of getting a deputy sheriff to serve this sumnons upon Mr. Mallery. That official was at his house this morning long before this appointment, but has not named any breakfast time

While the papers in the case were being filed at the county seat Mr. Mallery was in consultation with Gov. Warfield and was receiving the assurance that the highest official of the state was heart and soul with the citizens in their fight against the place that has given them so much concern. When seen by a Star reporter this morning, Mr. Mallery did not seem the least bit disturbed over the suit. He certainly had no idea that he was going to take that amount from his pocket and turn it over to the alleged proprietor of the Kenilworth

resort without a legal fight.
"I'll give them a chance to get \$10,000 from me this afternoon," was the remark of Mr. Francis S. Carmody. "I'm ready to go there today and serve a warrant if the magistrate will deputize me to serve one."
"And," added Mr. Mallery, "I'll go with
you and assist in making the arrest."

#### Return to Be Made in June.

The summons served upon Mr. Mallery commanded him to make return to the court the third Monday in June. It is said by those connected with the citizens' associations that they regard the filing of the suit as a bluff and an effort to gain time It is the intention of the associations to prevent this, however, if they possibly can, and they are relying upon Judge Merrick to assist them by calling a special session

of the court.

Another letter has been sent to the judge further explaining the situation and asking that the grand jury be convened in the near future in order that an effort may be made

They followed him to that city and found him in his office. He had already been made acquainted with the facts, and showed a deep interest in the fight that is being made. He asked that the statement of facts be made in writing in order that he might refer the matter to Attorney General Bryan. Mr. Mallery complied with the request, and expects that Attorney General Bryan or one of his assistants will be designated to appear in court at Upper Marlboro to assist in the

#### Referred to Mr. Bonaparte.

At the suggestion of Mr. Carmody the matter will also be called to the attention of Mr. Charles J. Bonaparte, president of the Reform League of Baltimore. It is believed Mr. Bonaparte will take an interest in the fight and render personal assistance. Members of the associations have reached the conclusion to employ counsel for the purpose of having him assist them in their fight and also to assist the state's attorcommonwealth's attorney of Alexandria county, Va., was suggested as one who is familiar with the matters to be considered. At the time Mr. Mackey was fighting the gambling element in Virginia he did not

sit quietly by and wait for the citizens to make the fight. When he learned of what was going on he procured information and swore out warrants. He procured nineteen warrants in one day and called on Gov. O'Ferrall for aid. The latter furnished him with eight deputies, and successful raids followed. Magistrate Elon Behrend, who issued the warrants against Arthur Wall and Percy

Pumphrey this week, has asket State's Attorney Magruder to be present at the hearing Monday morning. He received a response to his letter in which the state's attorney gave notice that he would ask for a jury trial on the part of the state. In his letter he suggested that the magistrate could bind the men over to the October term of court. The magistrate is not so certain that he will take this action, however, for he realizes that Judge Mer-rick may hold a sperial session of his court, and he does not want to make cut any papers which may conflict with any order that court may make. Today he sent the state's attorney a dispatch in which he repeated his request that the latter should not fail to be present at the hearing Mon-

#### Views of Virginia Prosecutor. Mr. Crandall Mackey, commonwealth's

attorney of Alexandria county, Va., is somewhat interested in the fight that is being waged against the pool room, because most of the people interested were connected with the resort across the river at St. Asaph. When spoken to by a Star re-porter he freely expressed himself as being of the opinion that the alleged claim of sending the bets to R. P. Lee & Co. at Harper's Ferry has absolutely no bearing upon the case whatever. He pointed out that the Maryland law against the making of books upon the races is much broader than that in Virginia. The law in Virginia, he said, had a loophole, but the Maryiand statute covers the offense so clearly that

there can be no evasion: Mr. Mackey points out that there is solutely no loophole in the law. While he objected to acting as counsel in the case for the citizens' association, he said, he is willing to do all he can to assist it in getting rid of what he termed a "ruisance." He suggested that the citizens might proceed against the place as a common law nuisance, and explained how the charge might be brought. Mr. Mackey said he had read with more than ordinary interest the accounts of what has been going

terest the accounts of what has been going on at Kenilworth, and some of the objections that had been made had a distinctly Alexandria county sound to them.

Yesterday afternoon there was the usual large attendance at the pool room, and betting was carried on as usual. Magistrate Behrend's injunction that the business should not be carried on pending the hearing was ignored by those who are backing the horses. Money transfers were sold as usual and there were losers and winners in the party, the same as there had been during the eight previous days that the game had been in operation.

## THE KENILWORTH CASE SENATORS AT ODDS

TO LAND FRAUD CASES.

President of the Maryland Telegraph Isthmian Canal Executive Committee Invited to Lunch With President on Monday.

> The two Ohio Senators are giving the President something to think and worry about, and at the same time are widening the differences between themselves and their backers. The disagreement this time is over the collectorship of internal reve enue of the Chillicothe district. Col. John a prominent republican of the state, died a few weeks ago, leaving a vacancy for the filling of which Senator Foraker has recommended David H. Moore of Athens, while Senator Dick declines to agree to person that would be suitable to him. The differences between the senators seem to be irreconcilable, and the President is in doubt what to do. He regrets that the

> two men cannot get together. Senator Foraker was among the earliest callers at the White House today, but at the time the President was engaged with Secretary Loeb in dictating some important papers, and the Ohio Senator said he would call again. Senator Dick is in Washington, and has an engagement to talk about the appointment. The President will probably not hurry about making an appointment, leaving the two Senators to get together, if that is possible. If they do not do so then he will be compelled to act as he thinks

#### Curious Situation in Oregon.

Attorney General Moody had a conference with the President regarding the successor to Charles B. Bellringer, United States district judge of Oregon, who died last night. Judge Bellringer was to have tried the case of Senator John H. Mitchell and others, indicted for conspiracy to defraud the United States in certain land cases. No decision yet has been reached as to who will be appointed as Judge Bellringer's successor. The situation in Oregon is peculiar. One senas tor and one representative are under indict ment. They cannot be consulted, of course as to the appointment. In view of the condifraud cases. It may be some time before the permanent successor of Judge Belling is named.

#### Marshal Matthews Removed

Walter F. Matthews of Portland, United States marshal for the district of Oregon has been removed by order of the President It is understood that this action was taken at the instance of the government's attor neys in Oregon, who, it is said, believed that Mr. Matthews was not sufficiently in harmony with the prosecution of land fraud cases now being conducteed in that state. Charles J. Reed has been appointed to succeed Mr. Matthews.
